**Subject:** Microsoft Antitrust Settlement

Dear Sir,

I think the DOJ and the 9 states entered into the anti trust settlement is obsessed to see how far they can carry out this case. Microsoft has had sufficient penalties levied against it. It seems to me that we all need to get on with our "business at hand,". Everything that continues to go on now, seems like a "cheap shot" at Microsoft as long as it is forced to "tippy toe" around until the settlement is completed.

James Arnstein
